

Premier Risk Management

WHO WE ARE:

INDEPENDENT | TECHNICAL SKILLS | COMPETITION

WHAT WE DO:

RISK ANALYSIS | CREATE STRATEGY | NEGOTIATE

The Definition of Excellence in *CompAudit Services®* ... *Reduces Worker's Compensation Costs*

Our CompAudit division is dedicated to recovering overcharges from current and prior insurance carriers, third party administrators and workers' compensation medical providers.

You Save by correcting *Classifications & Payroll Allocations*

You Save by correcting *Claim Data to the Rating Bureau*

What will this service Cost?

- Our policy is simple. We work on a **Contingency Basis**. You only pay for a result!
- **No recovery, no fee!** Our fee is due when you receive credits or the cash return .

Why do I need this service?

- Experience has shown that more than 86% of the clients we service, both large & small are overcharged by the insurance carriers.
- The complexity and technical nature of the workers' compensation system make it almost impossible to determine if the premium paid is accurate. Even small mistakes or overcharges when continued year after year add up to a significant return.

This simple adjustment can equate to a 10% to 30% savings over multiple past and future years.
